

Mechanical Assembler/Technician

What's exciting about Endurance Wind Power?

Endurance Wind Power will be the global leader in distributed wind technology and products. We will provide the market the greatest return on their renewable energy investment. We are an employee-owned, engineering-driven company with a passion for business excellence. We design, test, manufacture and market the best distributed wind turbines in the world.

This is an exciting time for Endurance Wind Power as we grow our company. If you are passionate about the alternate energy market and are looking to make a difference in the fast-paced work environment, this could be a role and place for you.

Reports to: Production Lead

Location: South Surrey / Langley, BC

What can you expect in the Mechanical Assembler/Technician position?

Endurance Wind Power is growing and we are looking for a **Mechanical Assembler/Technician** who possesses previous experience in assembling industrial equipment or automation. At Endurance you will build Wind Turbines.

- Operate production line equipment (pneumatic and manual hand tools, hoist/crane)
- Assemble, fit and install prefabricated parts to form subassemblies or finished products
- Position, align and adjust parts for proper fit and assembly
- Fasten parts together using fastening and joining equipment
- Inspect finished products for proper functioning
- Perform minor adjustments and repairs
- Housekeeping duties are required that include maintaining a clean and well organized work environment such as waste removal, well-kept work stations and cleanly swept floors.
- Other assigned duties as needed

What kind of background is required to thrive in this position?

- A technical aptitude combined with technical training in mechanics
- Manual dexterity required for operating machinery and computers
- Work well with others
- Ability to lift heavy objects of up to 30 lbs
- Knowledge and use of general shop tools
- Problem solving skills
- Basic reading, writing and arithmetic skills required.

What's the Essence of this Opportunity:

We have an opportunity for a technically talented assembler who is skilled in and enjoys mechanical work.

Ready to Join our Team?
